CONVENTION CENTER

- A [\\$140 million renovation and expansion](#) of the Greater Columbus Convention Center was completed in July 2017. The 22-month project, highlighted by 373,000 sq. ft. of contiguous exhibit space, was completed on schedule and the extensive upgrades and additions will improve the guest experience with hotel-grade finishes. Additional highlights include:
 - New show offices overlooking exhibit halls.
 - Creation of a Nursing Mother's Room.
 - Nine new meeting rooms with outside windows, for a total of 75 meeting rooms.
 - An 800-space, \$18 million parking garage connected to the center by skybridge.
 - Local food and beverage concepts in addition to 150+ pieces of local art displayed on the interior and exterior of the building and parking garages to give attendees a better sense-of-place while they are in the center.
- An interactive 14-foot sculpture titled "As We Are" is now permanently on display in the convention center's north atrium. Conceived by local artist Matthew Mohr, the piece, shaped like a universal human head, is made from ribbons of ultrabright LED screens and equipped with a photo booth capable of taking 3-D portraits, which are then projected on the face of "As We Are."
- Food-service provider Levy has installed a Smartfarm at the center's new Discovery Café. As the first convention center in the country with an indoor hydroponic vertical farm, the team yields about 5,000 pounds of produce per year and donates unused items to local charities.
